

Take a Hike on the Wild Side

CORPORATE SEEDLING PROGRAM

Take a Hike on the Wild Side engages Take a Hike youth and members of the community in tree planting and fundraising for two worthwhile reasons: to support 40 of Vancouver's at-risk youth, and to protect our planet by offsetting greenhouse gas emissions.

How It Works

Take a Hike and its partners will sell trees to members of the community, with all funds raised contributing towards Take a Hike's adventure-based learning program. Then, the Take a Hike youth and volunteers will plant every tree sold during Earth Week, April 19-23 2010, in partnership with Metro Vancouver Parks. The planting will take place at Matsqui Park in the Fraser Valley.

What is Take a Hike

Take a Hike empowers at-risk youth to reach their full potential through a unique combination of academics, adventure-based learning, therapy and community involvement. Every year, Take a Hike provides 40 at-risk youth with the opportunity to make positive change in their lives through outdoor adventure, working through their issues, building confidence and graduating from high school.

How can you get involved?

Join our Corporate Seedling Program: Purchase 125 trees for \$2,500* or 250 trees for \$5,000* and we'll plant them for you.

Benefits to Your Organization

A. Help the environment by offsetting paper use

- On average, a lawyer uses 50,000 sheets of paper annually. Help offset this paper use by having trees planted in your name

B. Engage in Corporate Social Responsibility with concrete action

- Not only will be helping your community by supporting at-risk youth, your donation will have a direct impact on the environment with new trees

C. Recognition

- You will be recognized on our website, newsletter and annual report

D. Communicate involvement with your stakeholders and employees

- Take a Hike will provide your company with educational info outlining your impact on at-risk youth, the environment, and "seven tips for communicating with teens". You will also receive photos of the youth planting your trees.
- Receive access to Take a Hike's logo and informational text to promote your philanthropic contribution

**Take a Hike is a registered charity. Donation is tax deductible*

Tree facts

Did you know, that a single tree absorbs one ton of carbon dioxide in its lifetime; that a mature tree releases enough oxygen to sustain two human beings?
